Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

- Advice Letter Number
- Name of Filer
- CPUC Corporate ID number of Filer
- Subject of Filing
- Date Filed
- Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
- Effective Date of Filing
- Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Advice 4788-G/7006-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

**Subject: Revision to the Establishment of the Infrastructure Investment and
Jobs Act and Other Federal Grant Programs Memorandum Accounts
Pursuant to Resolution E-5254**

Purpose

This revision to Advice Letter 4762-G/6958-E seeks approval to revise the established electric and gas memorandum accounts as shown in Attachment A, which clarifies the Electric and Gas Preliminary Statements to include the recording and tracking of grants and loan application costs and related matching funds.

Background

Resolution E-5254 (R. E-5254) adopts a procedural venue for the electric and gas investor-owned utilities (IOUs) to request cost recovery for match funding, other costs associated with participation, and tax liabilities pursuant to any funds received from the federal Infrastructure Investment and Jobs Act (IIJA) Clean Energy Infrastructure Grant Programs administered by the United States Department of Energy (DOE), the federal Inflation Reduction Act (IRA), and the federal Creating Helpful Incentives to Produce Semiconductors and Science Act (CHIPS).

The IIJA 2021 program appropriated more than \$62 billion to the U.S. DOE to create and fund 60 new programs, including 16 demonstration and 32 deployment programs. The federal legislation also expands funding for 12 existing Research, Development, Demonstration, and Deployment (RDD&D) programs. For most programs, funding will be available annually through fiscal year (FY) 2026.

The federal funding now available for this program aligns with the Commission's goals of improving energy infrastructure to support zero carbon emissions, grid reliability, safety, and bill affordability for electric and gas customers by potentially displacing or reducing the need for future ratepayer dollars for electric infrastructure, grid hardening, and resiliency projects. As a result, on January 24, 2022 and November 28, 2022, the Commission's President Alice Busching Reynolds issued letters to the investor-owned utilities (IOUs) to gather information on how California's IOUs plan to seek and use non-ratepayer matching funds.

Two additional legislative acts were passed by Congress in 2022, which are the IRA and CHIPS. These two programs are differentiated from the IIJA, because their eligibility requirements apply more so to clean energy producers, consumers, and related stakeholders rather than utility providers. The IRA's principal climate and energy-related tools are tax rebates and consumer credits or incentives, while CHIPS invests in research and development to catalyze commercialization of new clean energy technologies faster and at cheaper price points. Similar to the IIJA, specific programs and details of the IRA and CHIPS require matching funds (although not necessarily from IOU ratepayers) while other requirements and due dates are still under development, allowing for grant or other utility-focused opportunities to be announced at a later date.

The review of costs for IIJA, administered by the DOE, IRA, and CHIPS has two procedural options through which the IOUs may request project funding: 1) a utility can seek prospective ratemaking treatment through its General Rate Case (GRC), which occurs every three to four years; or 2) via a separate stand-alone, project stand-alone application, if earlier cost recovery is needed.

To comply with Ordering Paragraph (OP) 1 of the Resolution, PG&E was instructed to file a Tier 2 advice letter within 60 days of issuance of the Resolution to establish an IIJA Memorandum Account. The Memorandum Account tracks costs for any projects seeking and/or awarded federal funding, which will include incremental costs incurred to prepare applications. PG&E timely filed the Tier 2 Advice Letter on June 2, 2023, and the AL was dispositioned on July 10, 2023.

Discussion

Per OP2 of R. E-5254 PG&E proposed to establish two new memorandum accounts, Infrastructure Investment and Jobs Act Memorandum Account – Electric (IIJAMA – E) and Infrastructure Investment and Jobs Act Memorandum Account – Gas (IIJAMA – G). Each account will consist of two subaccounts: 1) the IIJA Cost Subaccount, which will track costs associated with match funding for any projects seeking and/or awarded federal funding including federal loans,¹ including those costs for the development and preparation of applications for such funding, and 2) the IIJA Tax Subaccount, which will track the tax impacts of the federal grant awards funding, including the tracking of tax liabilities related to federal grant awards and any tax benefits such as the impact of depreciation.² Awarded projects are those that are selected to begin negotiations toward a grant funding agreement. Per OP6 of R. E-5254, funding received through IIJA grants, the Inflation Reduction Act (IRA), and Creating Helpful Incentives to Produce Semiconductors and Science Act (CHIPS) all follow the same process as outlined in the Resolution, and as such the related costs and tax impacts for these three funding sources may be recorded to the memorandum accounts. The effective date of these memorandum

¹ Pursuant to OP2 of R. E-5254.

² Pursuant to OP3 of R. E-5254.

accounts is the effective date of R. E-5254³, which is April 6, 2023. For application costs, PG&E proposed that common costs that cannot be specifically allocated to electric or gas be allocated based on the overall project allocation, or if not known at the time the application costs are incurred, then the Operations & Maintenance Labor allocation in effect per the related GRC will be used. For project costs, PG&E proposed that common costs that cannot be specifically allocated to electric or gas be allocated based on the overall project allocation. Per OP4 of R. E-5254 PG&E may seek cost recovery of the costs tracked in the memorandum accounts through a GRC application or through a separate application. Actual spending requests for projects that seek and/or are awarded grant funding will be addressed in GRCs or separate project applications.

1. **PURPOSE:** The purpose of the Infrastructure Investment and Jobs Act Memorandum Account – Gas (IIJAMA-G) is to record and track 1) the costs associated with application costs and match funding for any projects seeking and/or awarded federal funding, including grants and loans, and 2) the tax impacts of the federal grant awards funding pursuant to Resolution (R.) E-5242. Application costs that cannot be specifically allocated to electric or gas will be allocated based on the overall project allocation, or if not known at the time the application costs are incurred, then the Operations & Maintenance Labor allocation in effect per the related General Rate Case will be used. Project costs that cannot be specifically allocated to electric or gas will be allocated based on the overall project allocation. (T)
(T)
 2. **APPLICABILITY:** The IIJAMA-G applies to all gas customers, except those specifically excluded by the Commission.
 3. **REVISION DATE:** Disposition of the balances in the IIJA Cost Subaccount and the IIJA Tax Subaccount will be through a General Rate Case (GRC) or through a separate application. Actual spending requests for projects that seek and/or are awarded grant funding will be addressed in GRCs or separate project applications.
 4. **RATES:** The IIJAMA does not have a rate component.
 5. **ACCOUNTING PROCEDURE:** The IIJAMA consists of the following subaccounts:
 - The IIJA Cost Subaccount will track costs associated with application costs and match funding for any projects seeking and/or awarded federal funding, including grants and loans. (T)
 - The IIJA Tax Subaccount will track the tax impacts of the federal grant awards and loan funding, including the tracking of tax liabilities related to federal grant awards and loans, and any tax benefits such as the impact of depreciation. (T)

INFRASTRUCTURE INVESTMENT AND JOBS ACT MEMORANDUM ACCOUNT - GAS (IIJAMA-G)

(N)

**FX. INFRASTRUCTURE INVESTMENT AND JOBS ACT MEMORANDUM ACCOUNT – GAS
(IIJAMA-G)**

1. **PURPOSE:** The purpose of the Infrastructure Investment and Jobs Act Memorandum Account – Gas (IIJAMA-G) is to record and track 1) the costs associated with application costs and match funding for any projects seeking and/or awarded federal funding, including grants and loans, and 2) the tax impacts of the federal grant awards funding pursuant to Resolution (R.) E-5242. Application costs that cannot be specifically allocated to electric or gas will be allocated based on the overall project allocation, or if not known at the time the application costs are incurred, then the Operations & Maintenance Labor allocation in effect per the related General Rate Case will be used. Project costs that cannot be specifically allocated to electric or gas will be allocated based on the overall project allocation.

2. **APPLICABILITY:** The IIJAMA-G applies to all gas customers, except those specifically excluded by the Commission.

3. **REVISION DATE:** Disposition of the balances in the IIJA Cost Subaccount and the IIJA Tax Subaccount will be through a General Rate Case (GRC) or through a separate application. Actual spending requests for projects that seek and/or are awarded grant funding will be addressed in GRCs or separate project applications.

4. **RATES:** The IIJAMA does not have a rate component.

5. **ACCOUNTING PROCEDURE:** The IIJAMA consists of the following subaccounts:

The IIJA Cost Subaccount will track costs associated with application costs and match funding for any projects seeking and/or awarded federal funding, including grants and loans.

The IIJA Tax Subaccount will track the tax impacts of the federal grant awards and loan funding, including the tracking of tax liabilities related to federal grant awards and loans, and any tax benefits such as the impact of depreciation.

A. IIJA Cost Subaccount

The following entries will be made to this subaccount at the end of each month, or as applicable, as follows:

- 1) A debit entry equal to the actual expenses for projects seeking and/or awarded federal funding, including those for the development and preparation of applications for such funding;
- 2) A debit or credit entry equal to the capital revenue requirement associated with actual capital costs incurred. Capital-related revenue requirement include depreciation expense, return on investment, federal and state income taxes, and property taxes associated with the costs of installed equipment;
