PUBLIC UTILITIES COMMISSION 505 Van Ness Avenue San Francisco CA 94102-3298

To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

Advice Letter Number
Name of Filer
CPUC Corporate ID number of Filer
Subject of Filing
Date Filed
Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
Effective Date of Filing
Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to edtariffunit@cpuc.ca.gov

September 13, 2024

Advice 4971-G

(Pacific Gas and Electric Company ID U 39 G)

Public Utilities Commission of the State of California

Subject: Revision to Gas Rule 21 (Transportation of Natural Gas) to update In-

Kind Shrinkage Allowances for Backbone Transmission and

Distribution Service

Pacific Gas and Electric Company (PG&E) hereby submits revisions to PG&E's Gas Rule 21 — *Transportation of Natural Gas* to update the natural gas in-kind shrinkage allowances for backbone transmission and distribution service pursuant to Decision (D.) 03-12-061. The affected tariff sheets are listed on Attachment 1.

Purpose

In-kind shrinkage allowances collect the lost and unaccounted for gas and the utility fuel use attributable to the volume of natural gas received by PG&E for transmission, distribution and storage service. In D.03-12-061, the California Public Utilities Commission (Commission or CPUC) authorized PG&E to update the in-kind shrinkage allowances annually or as necessary at other times of the year to match the actual shrinkage experienced on PG&E's system. This is reflected in Gas Preliminary Statement Part C — Gas Accounting Terms and Definitions, Part C.12.c., and Gas Rule 21, which state that PG&E may adjust distribution, transmission and storage shrinkage allowances annually or as necessary at other times of the year through advice letter submittals.

PG&E proposes revisions to its existing backbone transmission and distribution in-kind shrinkage allowances to be effective November 1, 2024.

Background

In Advice 4799-G, the Commission adopted PG&E's current transmission and distribution shrinkage base allowances effective November 1, 2023. Based on the latest cumulative shrinkage data and to better match the shrinkage expected on PG&E's system for the next 12 months, PG&E proposes revisions to the transmission and core seasonal distribution shrinkage allowances, effective November 1, 2024. The proposed shrinkage allowances are designed to recover PG&E's shrinkage forecast and to return an overcollected cumulative shrinkage imbalance forecasted. PG&E proposes to amortize the

- 2 -

over-collected cumulative imbalance forecasted volumes over 24-month period. PG&E will monitor actual shrinkage collected to determine if further adjustments are warranted.

Annual Shrinkage Allowance Forecast Update

The proposed shrinkage base allowances are calculated using PG&E's latest forecast of shrinkage on its system and PG&E's 2024-2025 customer demand forecast from the 2024 California Gas Report. In addition, the core distribution in-kind shrinkage allowance, with separate seasonal allowances for winter season (November-March) and summer season (April-October), as adopted in D.11-04-031, are adjusted. The proposed total in-kind shrinkage allowances, and the Base and Adjustment components of each allowance, are shown in the following table:

Proposed Total In-kind Shrinkage Allowance

	Current Effective In-Kind Shrinkage Allowance	Proposed In-Kind Shrinkage Base ¹ Allowance	Proposed In-Kind Shrinkage Adjustment ² Allowance (Credit)	Proposed Total In-Kind Shrinkage Allowance (Base + Adjustment)	Proposed Total Change
Transmission – Redwood to Off- System	0.9%	0.9%	0.00%	0.9%	0.0%
Transmission – Mission to On/Off- System	0.0%	0.00%	0.00%	0.00%	0.0%
Transmission – All other backbone paths	1.3%	1.1%	-0.1%	1.0%	-0.3%
Distribution – Noncore	0.2%	0.2%	0.00%	0.2%	0.0%
Distribution -Core Summer Season (Apr - Oct)	0.8%	0.6%	-0.1%	0.5%	-0.3%
Distribution – Core Winter Season (Nov- Mar)	3.9%	4.0%	-0.7%	3.3%	-0.6%

¹ The Base Allowance is designed to recover shrinkage forecasted to occur during the effective period of the shrinkage allowances (November 2024 through October 2025).

² The Adjustment Allowance is designed to recover (or return) any cumulative shrinkage imbalance forecasted to exist at the start of the effective period of the shrinkage allowances (November 1, 2024).

Based on the 2024-2025 shrinkage forecast, PG&E estimates that the proposed in-kind shrinkage base allowances, expects to recover the forecasted shrinkage on PG&E's system. PG&E will continue to monitor any cumulative shrinkage imbalance and will adjust the shrinkage allowances through advice letter submittals in the future, as necessary.

This submittal will not affect any other rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule. Workpapers supporting the proposed changes are included in Attachment 3 to this submittal.

Tariff Revisions

The revised in-kind shrinkage allowances will be revised in Gas Rule 21, Section B. (Quantities).

- The above revised backbone transmission shrinkage allowance percentages will be reflected in Gas Rule 21, Section B.1.a.
- The above revised distribution shrinkage allowance percentages will be reflected in Gas Rule 21, Section B.1.b.

Protests

Anyone wishing to protest this submittal may do so by letter sent electronically via E-mail, no later than **October 3, 2024**, which is 20 days after the date of this submittal. Protests must be submitted to:

CPUC Energy Division ED Tariff Unit E-mail: EDTariffUnit@cpuc.ca.gov

The protest shall also be electronically sent to PG&E via E-mail at the address shown below on the same date it is electronically delivered to the Commission:

Sidney Bob Dietz II Director, Regulatory Relations c/o Megan Lawson E-mail: PGETariffs@pge.com

Any person (including individuals, groups, or organizations) may protest or respond to an advice letter (General Order 96-B, Section 7.4). The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name and e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

Effective Date

In order to provide sufficient notice of the shrinkage change to gas transportation customers, PG&E requests that this Tier 2 advice submittal be approved by October 13, 2024, which is 30 calendar days after the date of submittal, with the tariffs effective on November 1, 2024. PG&E will inform gas transportation customers of the new shrinkage allowances on its Pipe Ranger Web site: http://www.pge.com/pipeline/ once this submittal is approved.

Notice

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically to parties shown on the attached list and the parties on the service list for A.21-06-021. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter submittals can also be accessed electronically at: http://www.pge.com/tariffs/.

/S/ Sidney Bob Dietz II Director, Regulatory Relations **CPUC Communications**

Sheet 2

- B. QUANTITIES OF GAS (Cont'd.)
 - 1. IN-KIND SHRINKAGE ALLOWANCE (Cont'd.)
 - a. Backbone Transmission Shrinkage

A Customer transporting gas over PG&E's Backbone Transmission System shall deliver each day at the Receipt Point to PG&E an additional in-kind quantity of gas supply equal to a percent of total volume of gas to be delivered at the Receipt Point. Thus, the quantity to be nominated at the Receipt Point equals the quantity desired at the Delivery Point divided by (1 - x) where x is the decimal equivalent of the Backbone Transmission System In-Kind Shrinkage Allowance percentage, based on the transmission path utilized as follows:

	Percentage of	Percentage of	Percentage of	
	In-Kind	In-Kind	Effective In-Kind	
	Shrinkage	Shrinkage	Shrinkage	
Path	Base Allowance	Adjustment	Allowance	
Redwood to Off-System	0.9	_	0.9	
Mission to On-System	0	_	0	
Mission to Off-System	0	_	0	
All other transmission	1.1 (R)	-0.1 (R)	1.0 (R)	(T)

Provided, however, that PG&E and the Customer shall not be prohibited under this Rule, where shrinkage requirements support a different shrinkage allowance, from mutually agreeing to a different shrinkage allowance for transportation over PG&E's Backbone Transmission System.

GAS RULE NO. 21 TRANSPORTATION OF GAS

Sheet 3

- B. QUANTITIES OF GAS (Cont'd.)
 - 1. IN-KIND SHRINKAGE ALLOWANCE (Cont'd.)
 - b. Distribution Shrinkage

For transportation on PG&E's Distribution System, an additional In-Kind Shrinkage Allowance shall apply, which is separate from backbone transmission and storage shrinkage. The Customer shall deliver each day to PG&E at the Citygate an additional in-kind quantity of gas supply equal to a percent of the total volume of gas flowing through the End-Use Customer's meter. Thus, the quantity to be nominated at the Citygate equals the quantity to be flowed through the meter multiplied by (1 + y) where y is the decimal equivalent of the Distribution System In-Kind Shrinkage Allowance percentage, as follows:

	Percentage of	Percentage of	Percentage of	
	In-Kind	In-Kind	Effective In-Kind	
End-Use	Shrinkage	Shrinkage	Shrinkage	
Customer	Base Allowance	Adjustment	Allowance	
Core – Summer Season	0.6 (R)	-0.1 (R)	0.5 (R)	(T)
(April - October)				
Core – Winter Season	4.0 (I)	-0.7 (R)	3.3 (R)	(T)
(November – March)				
Noncore Distribution	0.2	_	0.2	
Noncore Transmission*	_	_	_	

As an example, for a Core End-Use Customer being served via the Redwood Path, the amount to be nominated at Malin is calculated as:

Receipt Point Est. Metered / (1 - x)Quantity Usage (1 + y)Χ

Where: decimal equivalent of the Backbone x =

Shrinkage percentage, and

decimal equivalent of the Distribution Shrinkage y =

percentage

(Continued)

Advice 4971-G D.03-12-061 Decision

Noncore Transmission Level End-Use Customers or Agents require no Distribution System In-Kind Shrinkage Allowance.

PACIFIC GAS AND ELECTRIC COMPANY Workpaper for Seasonal Core Distribution Shrinkage Allowance Advice 4971-G (effective November 1, 2024)

	Seasonat@ore Distribution Shrinkage Base Allow	wance	(B)	(C)	
	Seasonal Core Distribution Shrinkage Rate Derivation				
Line No.	The Core distribution forecast is based on the customer demand forecast agreed-upon in the 2024 California Gas Report filed August 1, 2024. The Core Distribution Shrinkage Quantity is calculated by multiplying the Annual Core Distribution Demand Forecast by the Annual Core Distribution Shrinkage Percentage. The Core Distribution Shrinkage Quantity is allocated between the summer and winter seasons in the same percentage as the Total LUAF Forecast.				Line No.

PACIFIC GAS AND ELECTRIC COMPANY

Workpaper for Seasonal Core Distribution Shrinkage Allowance Advice 4971-G (effective November 1, 2024)

	Seasonat@ore Distribution Shrinkage Base Allo	wance (B)	(C)	
	Seasonal Core Distribution Shrinkage Rate Derivation			
Line No.	The Core distribution forecast is based on the customer demand forecast agreed-upon in the 2024 California Gas Report filed August 1, 2024. The Core Distribution Shrinkage Quantity is calculated by multiplying the Annual Core Distribution Demand Forecast by the Annual Core Distribution Shrinkage Percentage. The Core Distribution Shrinkage Quantity is allocated between the summer and winter seasons in the same percentage as the Total LUAF Forecast.			Line No.
