

ELECTRIC SCHEDULE E-LORMS
LIMITED OPTIONAL REMOTE METERING SERVICE

Sheet 1

APPLICABILITY: This limited schedule is available on a voluntary basis to any bundled service electric customer primarily engaged in the commercial breeding, hatching, and raising poultry for meat or egg production as defined by the 2002 North American Industry Standard Classification Code No. 1123.

(N)

TERRITORY: The entire PG&E service territory.

ELIGIBILITY: Customers must submit a signed Agreement for Limited Optional Remote Metering Service (Form 79-999), and have installed appropriate metering to establish service.

RATES: In addition to all other charges for service under the customer's otherwise-applicable rate schedule(s), the following charges will apply:

1. METERING SERVICES

a. Meter Installation. If appropriate metering is not available, it will be installed at customer's expense as "special facilities" in accordance with Section I of electric Rule 2.

2. METER READING SERVICES

a. Meter Reading Set-up charge, Per Meter.....\$16.00

Customers pay this charge when PG&E performs routine system maintenance for remotely read meters to ensure that all systems are updated so an interval meter can be read.

b. Meter services, including data retrieval, validation, editing, and estimating to billing quality form.

Per meter per month\$7.00

c. Monthly charges for the maintenance and operation of the telecommunication line required for meter reading.

Per meter per month Cost

3. BILLING

a. Billing set up per Service Account.....\$20.00

b. Billing fee, per Service Account per billing cycle.....\$0.70
