Advice 2418-G

(Pacific Gas and Electric Company ID U39G)

Subject: November 2002 Core Procurement Rate

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are listed on the enclosed Attachment I.¹

Purpose

The purpose of this filing is to submit changes to core end-use customer gas rates effective **November 7, 2002**. This filing is submitted in compliance with Decision (D.) 97-10-065, which approved monthly price changes for core gas procurement rates and also incorporates changes to core rates pursuant to Gas Accord D. 97-08-055 and Biennial Cost Allocation Proceeding (BCAP) D. 01-11-001. In accordance with D. 97-10-065, core gas procurement rates generally change on the fifth business day of the month. However, D. 98-07-025 allows PG&E to change its core procurement rates on the first day of the month when the transportation rates change on the first of the month.

November 2002 Procurement Rates

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, GM, GS, GT, GL-1, GML, GSL, GTL, G-NR1, G-NR2, G-NGV1, G-NGV2 and G-CP—*Gas Procurement Service to Core End-Use Customers*. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges to the core customer classes.

Schedule G-CP procurement charges proposed in this filing are shown below:

¹ PG&E reserves all legal rights to challenge the decisions or statutes under which it has been required to make this advice filing, and nothing in this advice filing constitutes a waiver of such rights. Also, PG&E reserves any additional legal rights to challenge the requirement to make this advice filing by reason of its status as a debtor under Chapter 11 of the Bankruptcy Code, and nothing in this advice filing constitutes a waiver of such rights.

	Residential (All schedules)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1/2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.49846	\$0.49653	\$0.47277	\$0.49077

The Schedule G-CP rates effective **November 7, 2002**, include:

- a) A monthly weighted average cost of gas (WACOG) of **\$0.35336** per therm, compared to last month's WACOG of **\$0.31673** per therm. The WACOG includes backbone transportation charges to the citygate;
- b) Interstate capacity costs for Transwestern Pipeline Company (TW) and El Paso Natural Gas Company (El Paso)²;
- c) An adjustment of **(\$0.07879)** per therm, which amortizes a \$44.6 million over-collection in the core sales sub-account of the PGA over two months;
- d) An adjustment of **\$0.12678** per therm, which amortizes over two months an expected gas prepayment charge of 71.8 million (\$66 million plus a \$5.8 million prepayment to El Paso);³

² Pursuant to D.02-07-037, PG&E has been including interstate capacity costs for TW, along with costs associated with procuring capacity rights on the El Paso system, in its monthly filings commencing in August 2002. In this filing, PG&E is continuing to include TW capacity costs; there are no estimated brokering credits included as PG&E forecasts that the TW capacity will be fully utilized in November. Also, PG&E is including in this filing, for the first time, the capacity cost for the total of 203,532 MMBtu/d of interstate capacity it has acquired from El Paso to serve core customers commencing November 1, 2002.

PG&E's August, September and October monthly price filings (Advice Nos. 2401-G, 2405-G, and 2412-G, respectively) have been protested by The Office of Ratepayer Advocates (ORA) and The Utility Reform Network (TURN). ORA and TURN argue that TW and El Paso costs should be recovered after revenue allocation issues are resolved in Phase 2 of Rulemaking (OIR) 02-06-041. On September 24, 2002, the Energy Division issued draft Resolution G-3339 that would grant ORA and TURN's protests. Subsequently, in October 2002, an alternate draft Resolution (Duque) was issued. The alternate would allow inclusion of El Paso costs with the condition that such costs would be allocated to core and noncore customers on an equal cent-cents-per-therm basis. The CPUC is expected to address the resolutions at its November 7, 2002 meeting. PG&E is continuing to include El Paso and TW costs in the core procurement rate pending outcome of the Commission's decision on the draft resolution and alternate.

³ The El Paso prepayment included in this filing is for the acquisition of an additional 100,000 MMBtu/d of El Paso capacity by PG&E pursuant to D. 02-07-032. Prior prepayments of \$7.7 million and \$ 5.0 million were included in the advice filings for August and September 2002, respectively. Treatment of prepayments by PG&E to El Paso are addressed in ORA's and TURN's protests, and in the draft resolution and alternate. PG&E is continuing to include these El Paso costs in the core procurement rate pending outcome of the Commission's decision on the draft resolution and alternate.

- e) An adjustment of **\$0.00385** per therm, which amortizes over two months a \$2.2 million undercollection in the Core Pipeline Demand Charge Account;
- f) An adjustment to interstate and backbone capacity charges to account for the monthly election of backbone and interstate capacity by gas Energy Service Providers (ESPs);
- g) A core storage rate component, adjusted to account for elections of core firm storage capacity by gas ESPs.

Preliminary Statement, Part B--*Default Tariff Rate Components*, reflects changes to the core procurement components. Workpapers showing the derivation of rates and components of this advice filing can be obtained by writing to the address shown below.

The prices in this filing shall remain in effect until PG&E's next such filing with the Commission. The current core procurement rates may be obtained at PG&E's internet site at:
