Advice 3137-G/3704-E
(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Request to Allocate Unspent Program Year 2009 Low Income Energy Efficiency Funds to the Microwave Pilot Budget

In compliance with Decision (D.) 08-11-031, Decision on Large Investor Owned Utilities LIEE and California Alternate Rates for Energy (CARE) Applications, Pacific Gas and Electric Company (PG&E) hereby submits this advice filing to request approval to allocate unspent Program Year (PY) 2009 Low Income Energy Efficiency (LIEE) funds to the microwave pilot budget.

Background

On November 6, 2008, the California Public Utilities Commission (Commission) approved D.08-11-031, Decision on Large Investor Owned Utilities LIEE and California Alternate Rates for Energy (CARE) Applications, in which Ordering Paragraph (OP) 85 authorizes the utilities “carry over of remaining, unspent funds from program year to program year or budget cycle to budget cycle: The utilities may carry over funds from previous periods to the 2009-2011 budget periods but may not allocate carry-over funds to administrative overheads, regulatory compliance costs, measurement and evaluation, or pilots and studies.” As directed by D.08-11-031, PG&E hereby requests permission to use $577,5391 in unspent PY 2009 LIEE funds to augment its PY 2010 and 2011 microwave pilot budget.

Through May 2010, PG&E has installed 1,188 microwaves through the LIEE program. The microwave is a cost effective measure and each one installed has resulted in 37.7 kWh and 17 therms of savings. Microwave ovens also are more efficient in cooking food faster and reducing air conditioning use during hot times of the year by not heating up customers' kitchens. This measure has been instrumental in enabling PG&E to treat homes that otherwise would not have been served based on either the three-measure or minimum savings qualification in the LIEE program.

1 Advice Letter 2979-G-A/3375-E-A approved LIEE expense allocation as 59 percent electric and 41 percent gas.
With the current authorized 2009-2011 LIEE microwave pilot budget of $300,000, PG&E can only install a total of 3,296 microwaves. Based on the current installation rate to date, PG&E forecasts that it could install approximately 6,300 additional microwaves through December 31, 2011, if additional funding is approved by this advice letter. Therefore, PG&E requests an additional $577,539 for its microwave pilot for the period 2010-2011 in compliance with D.08-11-031.
