Charges for your electric service include both generation (electricity) and transmission & distribution (feliesy of electricity) components. PG&Es transmission & distribution rates are applicable to all customers. PG&Es agreement on rate is not applicable to customers and destroyed being generation from PG&E and a CCA customers or Direct Access customers. Generation rates for these customers are determined by their energy service provider, although PG&E may also include PCIA and FFS charges to reflect the fut cost of your generation services. See definitions are consistent of the position of the pos

generation from PG&E, such as CCA cust below and on Page 2 of your bill.	omers or Direct Access custo	mers. Generation rates for t	hese customers are dete	rmined by their energy service	provider, although PG&E may	y also include PCIA and FFS	charges to reflect the full of	ost of your generation service	s. See definitions
